

## A Sense for Motion & Control

As a world leader in automation systems, Our Remotes offer a range of control solutions to suit your needs. Somfy's unique and stylish range of remote controls provides users with the ultimate in convenience - all at the touch of a button. In conjunction with the broad range of sensors, you have the ability to create energy efficient, convenient environments to improve the well-being of occupants in all living spaces.

### Remote Controls

Skymax remote controls come in a broad range of colours and styles to suit any décor. Ask your Skymax consultant for our complete range.

Silver remote

Patio remote

Lounge remote

Mod/Var remote

Revolutionary scroll wheel - specific for precise adjustment of venetian blind slats. Perfect for managing the level of heat and light entering a room.

16 Channel remote

6 Channel remote with timer

Wall mounted remote

In addition to acting as the stop function when using your remote, the "my" button on Somfy controls allows easy programming of your preferred awning position.

Smoove RTS wall mounted control\*

\*Choice of modules and frames: modules available in 3 finishes, frames available in 7 finishes

### Sensors & Timers

Thermal Comfort

Automated operation of awnings, sunscreens or external blinds via Skymax sensors and timers provides an optimum light and heat exchange between indoors and outdoors - without the need for occupant intervention. This ensures the temperature and visual comfort levels inside the home remain pleasant in all seasons, delivering a consistent living environment for maximum occupant comfort and well-being.

# Summer Comfort / Health and Well – Being Automation for Aerotech Opening Louvred Roof Systems

The sun protection provided by our systems is a key factor for health and well – being in our daily lives. Somfy motor and control systems enhance our well – being by adding convenience, thermal comfort and environmental efficiency.

By choosing a Skymax Aerotech Opening Louvred Roof System you maximise the functionality of your product and gain a much desired flexibility that is simply not possible with a manual system.

## Warranty

5 year warranty on all products.

Our quality testing procedures ensure all motors, controls and sensors conform to national and international safety and electrical standards.

## Convenience

With the simple touch of a button you can move your awning, sunscreen or blind to whatever position you like. Forget struggling to manually wind up heavy awnings and blinds - with a Somfy system it's comfortable, easy and convenient.

## Longer Lifespan

Somfy's smooth and controlled operation of awnings, blinds and sunscreens ensures both maximum functionality and a longer lifespan of the product. Manual operation can damage blinds and awnings through excessive force or improper use.

## Energy Efficiency

Reduce your energy usage by controlling the amount of heat and light entering your home. Keep your home cool in summer by reflecting the harsh heat of the sun but allow the sun in during winter to enjoy natural warmth and light.

## Quiet and Discreet

Somfy's world leading motors are fully concealed within the awning or sunscreen. With the simple press of the remote control you will enjoy the ambience and impress your guests with a quiet and sophisticated automated sun protection system.
