

AEROTECH SERIES - OPENING LOUVRED ROOF

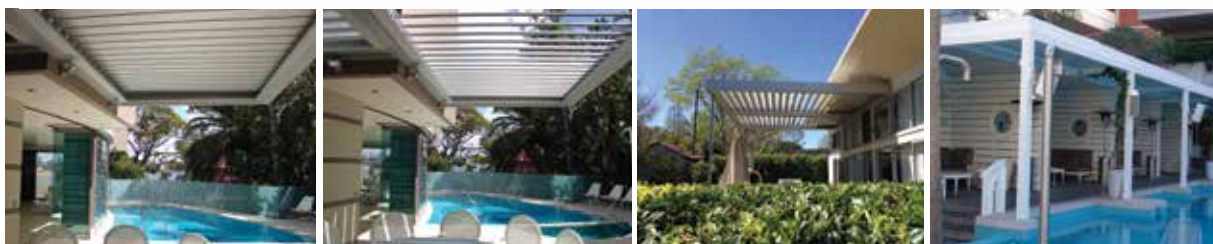

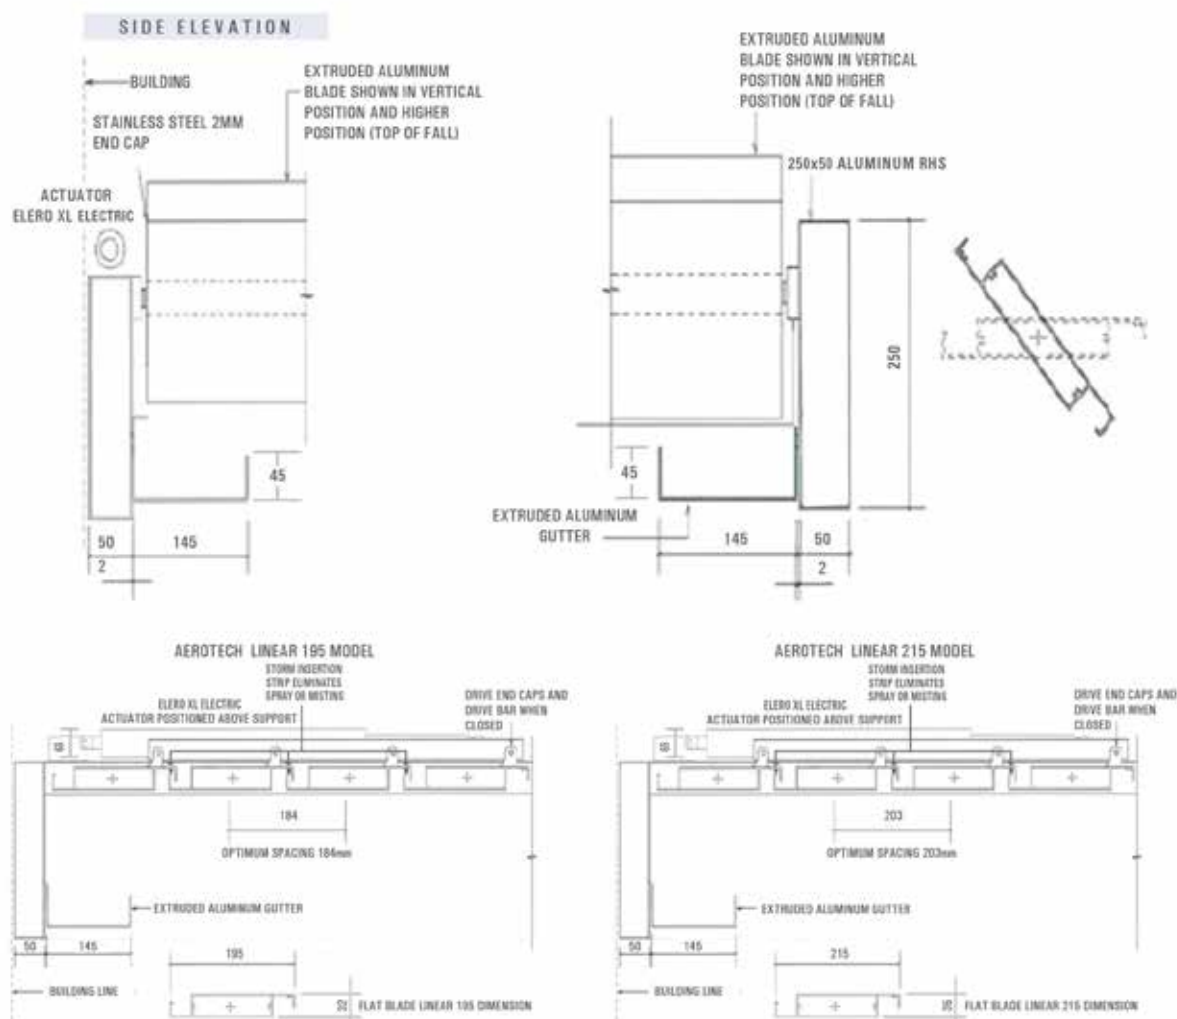

The next generation in outdoor living. Aerotech Series - Opening Louvred Roof Systems combine clear, simple architectural lines with advanced engineering ingenuity.

- Total climate control can be achieved by efficiently controlling the light, heat & ventilation to your alfresco space as outside conditions change.
- Our range of control options give you complete functionality of the Aerotech roof with options such as tracking the sun's movement or close the louvres when it rains .
- The Aerotech Louvred Roof is designed with a distinctive architectural appearance offering clean, unobstructed vision through the linear aluminium blades.
- Manufactured utilising non-corrosive materials including 6061 extruded aluminium blades. All hardware & components are produced from 316 stainless steel.
- Available in a wide range of finishes including anodised finishes, Interpon & Dulux powder coat finishes, providing endless design options.
- Aerotech Aluminium Louvred Roofs are engineered & manufactured in accordance with the wind & design codes of Australia, NZ, Asia, Europe & the United States.
