Models: Linear 195, Linear 215, Linear 235, Linear 255 and Linear 275
Company: Skymax Australia Pty Ltd (1300 929 743- skymax.com.au)

Skymax Australia Pty Ltd makes no warranty, representation or guarantee regarding any change in the intended design of the Skymax - Aerotech Series Opening Aluminium Louvred Roof System.

In relation to the location and type of power supply, (this depends on project inclusions) this is to be confirmed once a site visit has occurred, it is imperative the power is in accordance to the Skymax specifications supplied for your project proceeding the project managers site visit.

If the client does not complete or agree to complete the works specified by Skymax Australia Pty Ltd in relation to the supply of power, Skymax reserves the right to not proceed with the supply and installation of the Skymax system(s).

The required cable specification within the system is determined in accordance with the AS/NZS 3000.

Skymax Australia Pty Ltd does not warrant any works completed that are outside of the AS/NZS 3000. The information provided in this document is proprietary to Skymax Australia Pty Ltd & we reserve the right to make any changes to the information in this document or to any products and services at any time without notice.
